

SC401

# Speed up your floor cleaning

- with a compact and productive scrubber dryer

Ergonomic handle with touchpoints, One-Touch™ button and instruction stickers makes the machine simple for the operator to get started

Increased suction performance with the curved squeegee system and patented blade retainer

Detergent mixing system gives the user the option to clean with water only and to add detergent when really needed

# High and consistent cleaning performance for hours

The compact and highly maneuverable Nilfisk SC401 walk-behind scrubber dryer offers all the speed, accuracy and ease-of-use you need for better cleaning of floors. To make things complete this high-performance machine has an extremely low sound level to enable daytime cleaning – even in sound sensitive areas.

Designed and built with proven Nilfisk technology the SC401 will increase daily cleaning productivity in, e.g. offices, shops, hotels, schools, hospitals, work shops etc.

The high and consistent performance is ensured by the 43 cm scrub deck equipped with brush or pad. Thanks to the superior water pick-up provided by the curved squeegee system the floor is left completely dry – and you can keep up the good work for a long time: Up to 4 hours of continuous scrubbing and drying on a fully charged battery, and up to 100 minutes before the solution tank needs to be refilled.

Using the machine is simple and requires very little training. The 4 wheels make the SC401 easy to maneuver, and the OneTouch™ button activates all functions with one click. Furthermore, the cleaning settings can be changed on the fly thanks to the simple 3 buttons on the dashboard.

The machine is offered in both battery and cable version. The battery version is available also with traction to maximize user's ergonomics and comfort when using the machine

- Compact design and easy to maneuver
- Productive and powerful vacuum motor ensures a perfect cleaning and drying result
- Brush click on/off, and light weight squeegee with no hose connection
- Patented elastic strap system makes squeegee maintenance easy and simple
- Detergent mixing system will prevent overdosing of chemicals – saving the environment and the total cost of cleaning

The Nilfisk SilentTech™ technology reduces the sound level from 65dB(A) - and down to 60dB(A) in silent mode

# Reliability is also our mantra when it comes to service

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: three levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

## Service Solutions Standard – Professional maintenance

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

## Service Solutions Plus – Optimised performance

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

## Service Solutions Premium – Maximised uptime

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

## Technical specifications

Description	Unit	SC401 43 B FULL PKG
Reference number		9087390020
Voltage	V	24
Rated power	W	500
Sound pressure level at 1.5m	dB(A)	65 (60) ±3
Productivity rate theoretical/ actual	m <sup>2</sup> /h	1720/1032
Scrubbing width	mm	430
Solution/recovery tank	litre	30/30
Brush pressure	kg	25
Brush quantity and type		1 Disc
Brush speed	rpm	140
Battery compartment size (lxwxh)	mm	350x350x260
Length x width x height	mm	1180x720x1055
Operating weight	kg	151
